Variant II:

$Pr(F) = (Pl(F) + D) / K(F) \text{ EUR/USD}$, where

Pl(F) – the arithmetic average of basic quotations rounded to the second decimal place **throughout all quotation days of the month of the final price** formation for the Goods lot given in USD per metric ton for the respective position as per quotations of Platts agency in its publication “Platts European Marketscan”;

In case this information is not submitted the Seller shall apply the formula variant that was applied for final price calculation of the last confirmed lot of the Goods of the previous month of final price calculation.

In case of the Seller’s confirmation of the volume (lot) of the Goods made within the period starting with the 1st day of the month of the final price formation in respect of a definite agreed Goods lot **the Buyer is entitled to choose the variant of final price calculation until the moment of Euro/US Dollar FOREIGN EXCHANGE REFERENCE RATE publication made by Bloomberg agency** on its web site (**K(P) EUR/USD**) on the date following the date of confirmation the Goods for realization, by sending to the Seller a respective notice. - should the third decimal equals to four (4) or less, in this case the second decimal shall remain unchanged.

Should Platt's publish corrections to the previously published quotations, the updated calculation for the margin of any existing value shall be applied and work retroactively from the date of publication. 3.4. The final price of the 1st monthly agreed Goods lot is calculated throughout all quotation days of December 2019 except for the cases when the calculation according to the balance of the month is used (estimated period of shipment – December 2019 – January 2020);

4.2. Unless agreed otherwise the Buyer not later than 5 (five) working days prior to the first day of the agreed loading range shall advise the Seller on the name and deadweight of the nominated vessel and the expected time of its arrival at the loading port, as well as inform the Seller on any other vessel data necessary for the Contract to be fulfilled. The Seller is entitled either to decline any vessel nominated by the Buyer or to reject the acceptance of the vessel for loading on some sufficient grounds stating the reasons therefore, by submitting an official notification within 24 (twenty four) hours on working days from the moment of the vessel nomination receipt. 4.3. Buyer's nomination shall be consistent with the loading port authority requirements and shall include, among others, the vessel's name, flag, crew nationality, capacity, length, beam, summer deadweight and draught together with the quantity and quality of the grade(s) of oil products to be loaded. If any of this information is unknown at the time of nomination then such missing information shall be advised no later than three (3) working days prior to the first day of the agreed loading date range.

4.4. The Buyer may, or if necessary to perform its obligations hereunder must, with Seller's prior written agreement, substitute any vessel by another vessel which is similar in all material respects to the vessel so replaced but not later than 2 (two) calendar days prior to the first day of the agreed loading range. The Buyer may also, with Seller's prior written agreement and by giving to the Seller a reasonable notice, amend in other respects any vessel nomination or series of vessel nominations. If such amendment is rejected by Seller, the Parties shall negotiate a mutually acceptable alternative vessel nomination. The Buyer shall not, unless otherwise agreed, be relieved of its responsibility to perform the agreed loading.

4.5. Notwithstanding any prior acceptance of the vessel, the Seller shall have the right to reject the vessel if the loading terminal rejects the vessel; or on any reasonable ground if the vessel is involved in any incident or more recent information regarding the vessel becomes available to the Seller at any time after such prior acceptance.

4.6. The Buyer hereby warrants and undertakes:

4.6.1. to comply with the latest vessel size restrictions, including but not limited to, deadweight, draught, beam and overall length limitations of the loading port and will not nominate a vessel exceeding such limitations;

4.6.2. to comply with, and shall cause the vessel to comply with, all applicable regulations in force at the loading port, including, but not limited to, those relating to fires on board vessels; and

4.9. If the Buyer fails to notify the loading information in compliance with the notice period as specified above, the Seller shall use reasonable efforts to obtain acceptance of such late notification (and of vessel’s nomination referred to in the clauses 4.2, 4.3, 4.4 and 4.7 above) by the loading terminal or Seller’s supplier. Notwithstanding the above, the Buyer shall be liable for all costs resulting from any delays in loading the Goods under the Contract due to failure by the Buyer to supply the loading information in a timely manner, and any such delays shall not count as used laytime.

4.10. Except for unfavourable weather the Buyer is responsible for the vessel departure from the berth within 3 (three) hours after the loading is accomplished (the countdown starts after the loading time given in TIME SHEET/STATEMENTS OF FACTS to be signed by authorized representative of the vessel, agent and terminal shift foreman) or earlier, if Seller requires, due to objective cause provided the ship master obtained the set of transport documents.

4.11. Should the payment conditions and (or) due date stipulated in the present Contract or the time of additional agreement signing be violated the tanker nominating period is postponed in proportion to the time transfer of the final performance of obligations by the Buyer.

4.12. Should the Buyer may need to change the time of vessel approach and/or port/terminal/berth in lieu of agreed, this is to be agreed by Parties, all the incurred costs hereto (including but with no limitation for shipment and transshipment) are to be at Buyers' expense.

4.14. The Buyer shall use his best efforts to appoint ESTMA Ltd. on competitive basis as shipping agents for vessels loading.

5. LAYTIME AND DEMMURAGE

5.1 Laytime starts in six (6) hours after the Master of the ship submits a notice on readiness for loading (N.O.R.) received by the Seller or the third party appointed by the Seller (N.O.R. can only be submitted after the vessel's arrival to a usual berth or waiting place of the nominated port) or from the time of berthing whichever occurs first. The Buyer shall ensure that by no later than 24.00 (local time) on the last day of the Loading range:

1) the Vessel nominated by the Buyer hereunder shall arrive at port, complete all formalities and is all fast alongside berth; and

2) Valid NOR has been tendered.

5.1.1 If the vessel arrives before the first day of the agreed 2 days loading range nominated and accepted, laytime shall not commence until 06.00 a.m. on the first day of the agreed loading date range or the time loading commences whichever is the earlier; or

5.1.2 If the vessel arrives after the last day of the agreed 2 days loading range nominated and accepted, laytime shall commence at the time loading commences. In this case the vessel shall be berthed in turn.

If the rules and procedures of the port stipulate observance of special requirements for vessel entering the port, piloting or similar actions the laytime starts from berthing.

If the vessel is loaded with several lots, including the Seller's lot the laytime for the Buyer starts/stops with the beginning/completing of loading the Goods from the Seller.

5.2. The time to process the vessel loaded under the present Contract with the Goods volume up to _____ metric tons is restricted with ____ (_____) hours pro rata to the cargo parts in excess of _____ metric tons (in favourable weather conditions, Sundays and days off inclusive provided that the loading on the above mentioned days is not statute-banned or prohibited by norms and regulations at the loading port); for the purpose of all reports a full cargo shall be considered a total amount loaded on board the vessel as per Bill of lading. Time necessary for loading larger quantities of the Goods to the larger capacity vessel is subject for mutual agreement by the Parties when additionally nominating vessel. Should the loading be suspended due to unfavourable weather the suspended time is not included to laytime.

5.3 Should the vessel placed by the Buyer for loading need preparation (cleaning) of tanks or any other activities that affect the beginning/duration of loading and lay period, and the Buyer has not claimed the necessity of the above activities at vessel nomination, the Seller has the right to accept the vessel as soon as it becomes ready in the nearest free turn with no liability for the demurrage.

5.4 If the whole vessel is loaded with goods, purchased from the Seller, laytime shall cease on disconnection of cargo hoses on completion of loading. In case of multiple or part cargo loading laytime shall cease on the completion of loading of the Seller's parcel.

5.5 The demurrage of the vessel shall be paid by the party responsible for appearance thereof on a basis of rates of charter-party of the vessel to be shipping the Goods. Should the demurrage rate be

not set in charter-party, the demurrage shall be calculated on a basis of London Tanker Brokers' Panel ('LTBP') that should correspond to vessel shipping the Goods hereunder. The appraisal cost of LTBP is to be paid by the Buyer.

5.6 Time shall not count against laytime, or if the vessel is on demurrage, for demurrage when spent or lost:

- time spent by the vessel moving from anchorage to the designated berth after it tenders its NOR, including without limitation any time spent on mooring operations and/or waiting for the port pilot, an additional tug boat and on placing gangway; or
- whilst the vessel is handling or preparing to handle ballast or bunkers, unless this is carried out concurrent with loading or other normal cargo operations such that no loss of time is involved, or is carried out to comply with shore restrictions; or
- by any delay due to fault, failure or inefficiency of the vessel; or
- awaiting tide, tug boats, pilot, convoy, daylight or moderation of weather prior to berthing, ice and for immigration, inward clearance, customs or pratique (inward clearance), sanitary formalities and safety (key) meeting; or
- as a result of strike, lockout, stoppage or restraint of labour; or
- time lost inspecting the vessel, surveyor and cargo calculations or as a result of vessel's preparing to loading or for its failure to load the Goods with prompt loading rate and efficiency including delays arising from any breakdown or incapacity of vessel's facilities; or
- prohibition of night time loading or berthing due to Buyer's or vessel owner's instructions or port and terminal regulations; or
- any delay or curtailment of the loading operations attributable to the vessel's agents, master, officers, crew, the Buyer, vessel's owner or operator; or
- time needed to amend the documents after loading has completed under the Buyer's request.

5.7 If the laytime allowance as provided hereunder is exceeded the Seller shall, except as hereinafter provided in this Clause, pay to the Buyer demurrage for all such excess time at the full rate specified in Clause 5.5 hereunder. In any case the Buyer is not to claim more than that paid out by the Buyer.

If however all or part of such demurrage is incurred due to force majeure circumstances as specified by Clause 11 of the present Contract, the rate of demurrage shall be reduced to one half of the established demurrage rate.

5.8 A demurrage claim will only be considered by Seller provided that a fully documented claim submitted together with the following documentation:

- a) Buyer's invoice for demurrage; demurrage claim of the vessel's owner with the calculation;
- b) Buyer's detailed calculation of the amount claimed;
- c) Copy of statements of facts/time sheet, letters of protest;
- d) Copy of C/P or freight agreement

is received within 45 (forty five) days from the date on which notice of readiness to load (N.O.R.) is given. The claims for the amounts less than 1000 (one thousand) US dollars shall not be considered and paid.

5.9 If the vessel concerned loads oil products purchased by the Buyer from the Seller as well as other oil products at the same loading port, the Seller's liability to the Buyer for demurrage under the foregoing provisions shall be limited by the demurrage, actually caused by the Seller.

5.10 Payment of due demurrage shall be made on Buyer's demand and shall be paid in EURO to Buyer's account with a bank nominated by the Buyer or in such other manner as may be agreed between the Seller and the Buyer.

5.11 Any claim to the Seller in connection with damage caused to the terminal equipment at the loading port due to the vessel's fault as nominated by the Buyer shall be for the Buyer's account.

6. TERMS OF PAYMENT

6.1. The payment is effected as 100% advance payment of the agreed Goods lot within 2 (two) banking days from the date of issuance of a respective invoice by the Seller. Above mentioned payment is subject to the mutually signed Additional agreement being in Buyer's disposal.

6.2. The payment should be effected against the Seller's invoice.
